FYI. I completed the Lehman deck but need to check it with Ed. Spoke to him on his cell and he will call me when he finishes a call with Legal. Will send the final deck after that.

Ed,

Here is the Lehman updated deck. The only issue I would like to check is that the financing we got here is slightly lower than what David Chang sent last night. Until Thursday we were getting bigger figures because non-triparty transactions were being included - that was fixed. I am not sure if this run missed anything.

Also wanted you to check if you have any comments.

Henry is at 1 CMP and can take this to Barry if needed. Let me know.

Thanks.

## Tri-Party Repos and Collateral – Lehman – 9/12/08

- Tri-party investors held US\$4.1 billion margin on their tri-party repos on 9/12.
- Total financing was US\$87.1 billion against US\$91.1 billion in collateral. Financing was down by US\$23 billion compared to 9/11.
- JPM also provided Lehman separately a US\$1.4 billion secured broker loan 200% collateralized by securities that are ineligible under the broker loan collateral schedule.

## 9/13 Unwind - Lehman

- After the morning unwind on 9/15 JPM will have US\$9.8 billion margin covering its intraday financing:
  - US\$3.6 billion margin reflecting the tri-party investor margin excluding equities.
  - US\$1.7 billion representing the 125% margin for equities assuming the Lehman pledges the US\$1.2 billion margin above what it used for tri-party investors on 9/12.
  - US\$4.5 billion locked up as extra collateral (adjusted to Gifford Fong's prices).
- JPM will also have the additional US\$5 billion cash collateral obtained on Friday as a cushion although that covers all JPM's credit exposure.

## 9/15 PDCF Analysis – Lehman

In a worst-case scenario, if Lehman had no tri-party investor rolling over repos, it would need to rely on the PDCF for overnight financing. The analysis below reflects the impact for JPM:

US\$ million Security Type	Collateral Market Value	Securities Ineligible for PDCF	Eligible Securities for PDCF	Fed (PDCF) Financing	Collateral Coverage %
<b>Fed-Eligible - Total</b>	<b>51,440</b>	<b>3,011</b>	<b>48,429</b>	<b>48,408</b>	<b>104.4%</b>

<b>DTC-Eligible - Total</b>	<b>33,084</b>	<b>15,515</b>	<b>17,569</b>	<b>15,933</b>	<b>110.3%</b>
ABSs	3,851	1,488	2,363	2,208	107.0%

<b>TOTAL</b>	<b>87,935</b>	<b>18,526</b>	<b>69,409</b>	<b>65,751</b>	<b>105.6%</b>

- US\$18.5 billion in securities are ineligible for PDCF.
- Lehman would need to allocate US\$69.4 billion in eligible collateral against US\$65.7 billion in PDCF financing, with a US\$3.7 billion margin.
- Lehman would be left with US\$18.5 billion in lower-quality tri-party collateral to cover a US\$18.3 billion financing<sup>1</sup> need.
- JPM's total intraday collateral, including the incremental US\$4.5 billion collateral provided by Lehman, would be US\$23 billion. JPM would therefore be 125% collateralized.

<sup>1</sup> US\$18.3 bi equals overnight tri-party investor financing (US\$84 bi) minus PDCF financing (US\$65.7 bi).
